PREFACE

The activity book includes different types and levels of activities that allow students to use the knowledge and skills they have learned at their schools. Through these activities, students will have the opportunity to monitor their own development, and at the same time, teachers will have the opportunity to give them effective feedback and to follow the cognitive development of their students at different levels. In this respect, the activities in the activity book are structured in a way that allows observing the outputs for all cognitive domain steps.

The use of all types of fill-in-the-blank, matching, multiple-choice, open-ended, and short-answer items in the activities aims to serve this purpose. In addition to these activities that students are already familiar with, the activity book contains activities such as crossword and wordsearch puzzles, which enable them to have a pleasant time. Also, in the “Do I remember?” section, students will be able to make their self-evaluations and have the opportunity to revise the parts of the theme in which they have a poor performance through the QR codes.

The activity book, which has been prepared and controlled by experts in the field, is intended to contribute to our students and teachers.

To Defne

Subject Vacation in Bangkok

Dear Defne,
I'm in Bangkok. It is the capital of Thailand. It is in Asia. Bangkok is a popular city for tourists. Most of the tourist attractions in Bangkok are historical and religious sites such as temples in Bangkok. There are other interesting places here, for example museums, parks and shopping centres. This is the picture of a floating market. Shopping on a floating market is a great experience for me. I like it most. The city is very noisy, colourful and exciting. People speak Thai language. They are friendly, helpful, and kind. They usually smile. The cuisine is rich in Thailand. Thai people are fond of seafood, coconut milk, rice and noodles. There are many street markets here. I sometimes eat delicious food and snacks. What about the climate? The climate of Thailand is tropical, with three distinct seasons. A hot season from March to mid-May, a rainy season from mid-May to October and a dry and cool season from November to February.

See you soon.

Tom

To Tom

Subject Vacation in Cairo

Dear Tom,
I'm in Cairo now. It is the capital city of Egypt. It is the largest city in Egypt. It is on the African continent. I'm having a great time here. I stay in a hotel. I get up early every day. Then, I go sightseeing tours. The streets are full of tourists from all over the world because the city is famous for its tourist attractions. The city is famous for pyramids. The Great Pyramids of Giza is marvellous. I take a lot of photos for my blog. Egyptian Museum is amazing. You can see many statues of Egyptian Kings here. Old Cairo is also wonderful. This is a picture of the Nile River. The Nile is the longest river in the world. Boat tour on the Nile River is enjoyable. However, you should be careful of crocodiles here. The people here are friendly. They speak Arabic. Their cuisine is rich with spices and herbs, so their foods are delicious. Some meals are similar to the Turkish cuisine. For example, Egyptian kabab and kofta, Egyptian baclava, and kunafa as desert. The climate of Egypt is hot and dry, so people wear sunglasses and a hat to protect their heads from sun rays.

See you soon.
